Image Alignment

From mPDF version 4.2 onwards, in-line images can be individually aligned (vertically). Most of the values for "vertical-align" are supported: top, bottom, middle, baseline, text-top, and text-bottom. The default value for vertical alignment has been changed to baseline, and the default padding to 0, consistent with most browsers.

These images   are   **top**   aligned

These images   are   **text-top**   aligned

These images   are   **bottom**   aligned

These images   are   **text-bottom**   aligned

These images   are   **baseline**   aligned

These images   are   **middle**   aligned

Mixed alignment

baseline: text-bottom: middle: bottom: text-top: top:
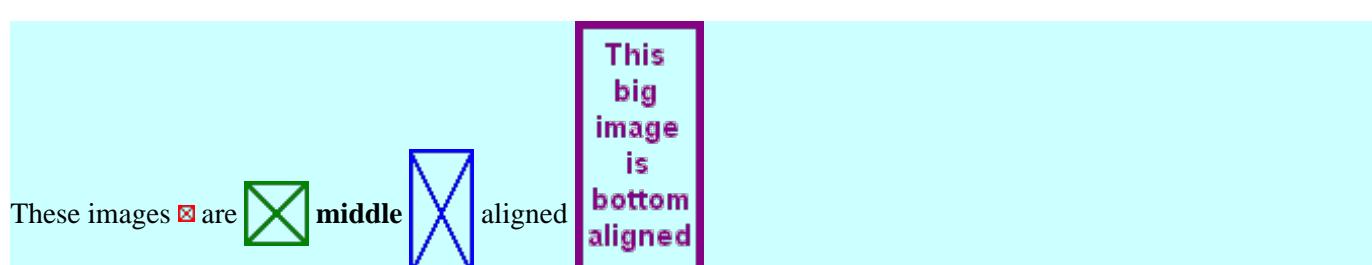

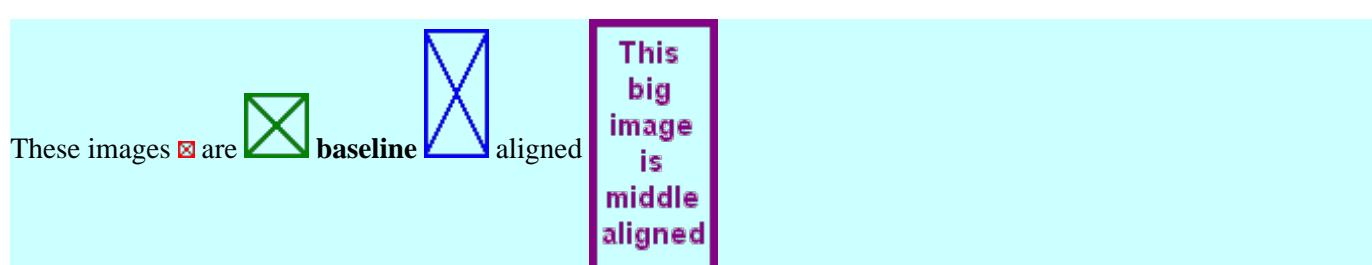

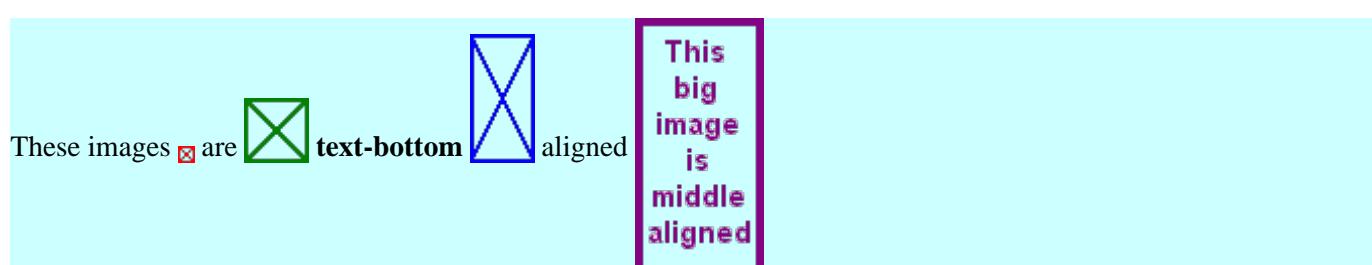

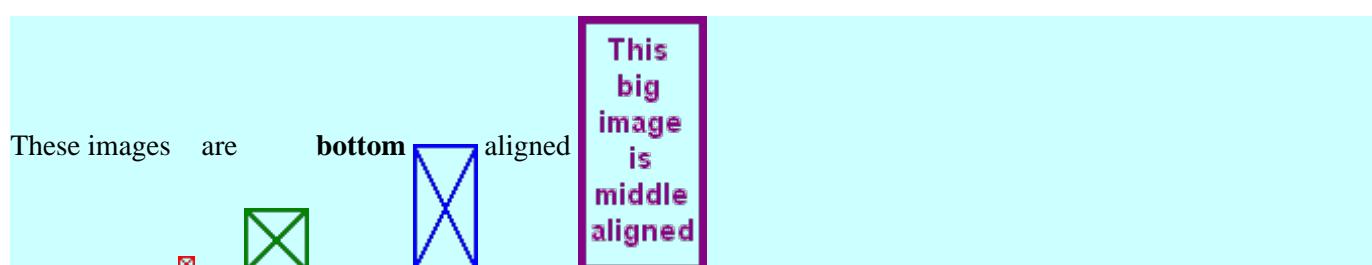

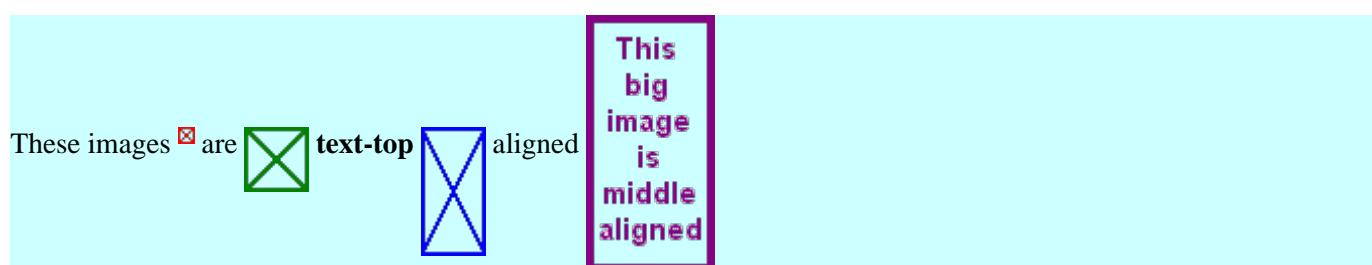

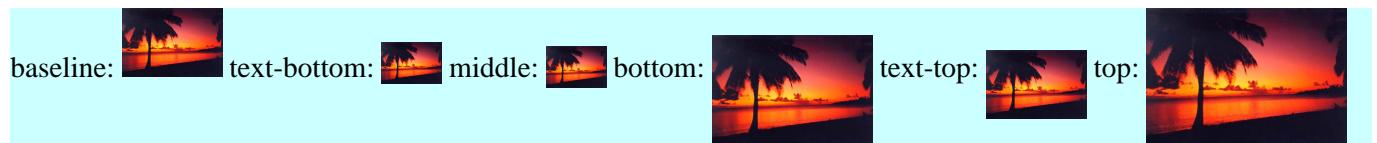

Image Border and padding
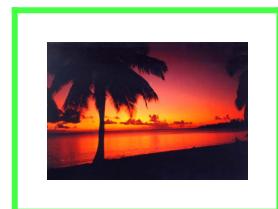

From mPDF v4.2, Image padding is supported as well as border and margin.
